

‘Coronal Holes’ Quiz

1. What is solar wind?

2. What is a coronal hole?

3. What is a high speed stream (HSS), and how is it related to a coronal hole?

4. What are the typical speeds of the typical slow solar wind? What can be the speed of a high speed solar wind stream?

OPTIONAL homework

1. Characteristics of Coronal Holes

2. What is the distinction between the coronal hole and the filament channel?

3. What are stream interaction regions (SIRs) and corotating interaction regions (CIRs)?
